

Pilot Phase Successfully Launched

On **21st October**, more than **250** participants from all partner countries joined the online pilot session of the Health2Innovation project. The session introduced learners to funding opportunities in the healthtech sector and provided hands-on experience using the Educational Hub. Participants also learned about the upcoming mobile matchmaking app, as well as the Bootcamp and Apprenticeship Programme planned for 2025–2026. The strong engagement and feedback from participants mark an important milestone toward creating a dynamic, inclusive, and skill-driven learning ecosystem in healthcare innovation

Innovation in Action: Bootcamp & Apprenticeship

The Health2Innovation Bootcamp will take place on the 10th and 11th of December in Lund, Sweden, and will bring together participants from across Europe to co-create real-world solutions for healthtech innovation.

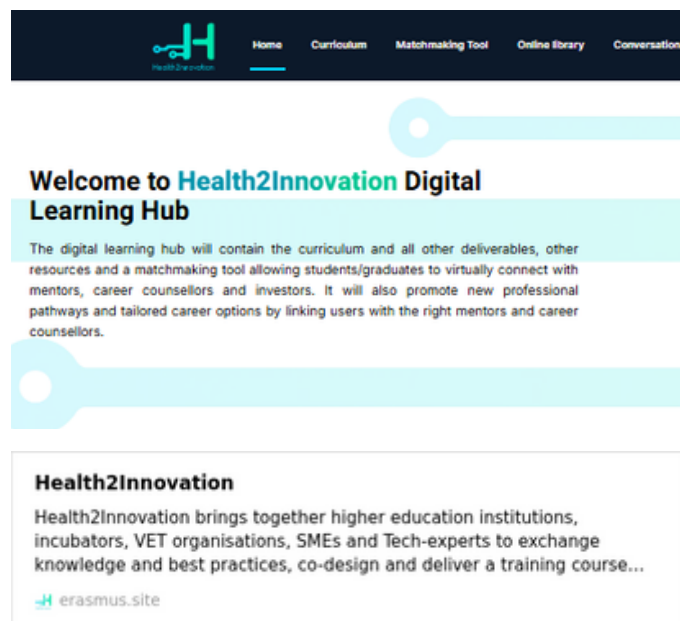

In March 2026, two participants from all partner countries will have the opportunity to travel to Lund, Sweden, and/or Lille, France, for a week-long apprenticeship programme during which they will have the chance to work and network alongside experts in the field.

WP3 in Progress: Building the Health2Innovation Learning Experience

The Health2Innovation project has entered WP3, a key phase focused on creating innovative learning resources for future healthcare leaders. Based on insights from WP2, WP3 develops a comprehensive virtual training programme with 12 thematic modules.

Learners can earn micro-credentials, tailoring their studies to individual needs. The training combines videos, case studies, and interactive tools and will be hosted on the upcoming

Health2Innovation Digital Learning Hub

Consortium Meeting in Lille: Planning the Next Steps

In June, the consortium met in Lille, France, for a productive two-day meeting hosted by Eurasanté. Partners discussed key upcoming activities and enjoyed a guided city tour and a visit to Eurasanté's facilities, experiencing Lille's local culture, craft beer, and French cuisine.
